

## **Sample Daisy Nomination**

Ron Juarez  
5 East  
January 2010

### **Clinical Skills**

Ron Juarez has been a nurse for many years on 5 East/Pulmonary ICU. Whether it's how to titrate drip, how to run a code, or place difficult IV, Ron is your man. Ron is very soft spoken and never sticks his head out for any acknowledgments, but is consistently named by his peers as the best nurse on 5 East and the one to go to if they need help. Ron can frequently be seen going around the unit looking to find other nurses who need help.

### **Compassionate Care/Exemplary Service**

Family member persistently single out Ron as genuinely kind nurse. Whether it's spending an extra 10 min to make sure his patient it truly comfortable or sitting down with families to find out what's troubling them, Ron is always placing patients and families first. I have never known Ron to be impatient, unkind, or even slightly short. He is often sent taken the most difficult assignments day after day without a fuss.

### **Continued commitment to excellence**

I took a family member a few months ago and they remarked on how Ron had taken care of their other relative some 5 years ago. They remarked on how remarkable he was a nurse and went on to describe a humble, truly kind and capable nurse. I realized as I listened as I listened to them describe Ron that he has been consistently compassionate and hard working nurse year after year. I've even spoken to someone who has known Ron since high school and she remarked on how he has always been just the same kind, hard working and humble man. I feel like it's time Ron gets the recognition he deserves. He is certainly appreciated on 5 East but everyone in the hospital should know how great he is.
